# WELCOME TO OUR SCHOOL

Alpha Beta School is a "prepared environment" for learning and academic excellence. Our facilities, staff and curriculum provide students with all the resources needed to excel.

Alpha Beta Education Centres helps expose children to a rich and varied teaching and learning environment which seeks to broaden their outlook; encourage the best examples of Christian morality, and service to others; and to develop skills which will enable them to compete favourably and be global agents of change.

## ABOUT US

Alpha Beta Education Centres was founded by Rev. Samuel and Florence Adjepong who relocated from the UK in 1986. The school began with six children, ages two to three years under the carport of their home in Dansoman in September 1988, and so it was that the Alpha Beta Montessori Learning Centre took off. The success of the pre-school resulted in the setting up of the Kindergarten in 1991 which was followed by the start of the first phase of Alpha Beta Primary and Junior Secondary School in 1992.

Our international secondary school was established in 2004 to provide a world class international secondary education experience for our clients.

In 2020 we officially transitioned our Primary Department to offer a full international curriculum. In addition to our high academic standards, we have a strong focus on developing entrepreneurial leadership skills in our students to help them become creative, confident and competent leaders.

### ➤ Vision

# OUR PRE-SCHOOL

On entering our typical Montessori classroom one is struck by the organization of the learning environment. 'The Prepared Environment' is a characteristic of the Montessori method. In this classroom, children are free to learn through 'doing' and 'touching'. The children learn through practice and repetition of an activity until they have mastered the skill.

That, in itself, is physically, spiritually and emotionally satisfying to a child. Not only does this sense of achievement boost self-esteem, but it also produces a child who is self-motivated to learn.

Alpha Beta is a Christian school which emphasizes the importance of biblical principles in all areas of the curriculum. Friday mornings are dedicated to bible teachings and praise and worship in which all pupils are expected to participate.

## ➤ Hands On Approach

The 'Hands On Approach' means that the children in the Montessori school are always engaged in one activity or another; and usually, the children in the same group are involved in different activities according to their needs, interests and abilities. Children are allowed to progress at their own pace with teachers providing a structured individual approach to learning. The systematic nature of the Montessori apparatus enables the child to monitor his or her own progress, always aiming at reaching the next level, having completed the previous one.
